

# UTAH PIONEER RESTORED TO HEALTH BY THE YEE FOO LUN CHINESE HERB TREATMENT

Mr. Isaac Whimpey is one of Utah's pioneers, having lived in this state for more than thirty years. His home is in Lehi, Utah, but he is at the present time residing with his son-in-law, Mr. Irving West, 110 South Tenth East Salt Lake City.

Mr. Whimpey has suffered for years with bronchial and asthmatic troubles, nervousness and dropsy. His worst ailments are dropsy and kidney trouble, and swelling of his hands and feet, face and stomach. When he first called at the Institute, through the recommendation of his friends and relatives, to investigate the Yee Foo Lun herb treatment, he could hardly get up the steps and was obliged to rest several times before reaching the office. He had tried many ways to regain his health, but as nothing seemed to do much good he had very little confidence, but began the treatment as his daughter and son-in-law had insisted upon him giving it a trial, for they knew that he was in such a condition something would have to be done in order to get relief.

He has now taken the treatment for a little more than two months and the swelling has gone, he has regained his strength and from appearances no one would believe that he was in such a critical condition two months ago.

Mr. Whimpey said yesterday at the Institute: "My relatives and friends are greatly surprised to know how well I am at present, as they and I, myself, had thought that there was very little hope of me ever getting well, as I had no appetite, could not sleep well at night, had coughing spells in the morning and my breathing was very difficult, my limbs and feet were swollen to twice their natural size and I was obliged to remain in bed the greater part of the time on account of being so weak and exhausted. When I first called at the Institute I had to rest several times on the stairs before getting to the office and was in such a condition that I thought there were no hopes for me, but I began the treatment, as my relatives had insisted upon me doing so. After I had taken the Yee Foo Lun Chinese herb treatment but a short time I began to get better and have been improving right along. Now my appetite is good, I have regained my strength, can sleep well at night and the swelling has gone.

"Really, this treatment has kept me out of the grave. All my relatives and friends are surprised to see how well I am today."

## CURED AFTER YEARS OF SUFFERING.

It is a common occurrence for almost hopeless men and women to call at the Institute and tell of years they have spent in unsuccessful efforts to get relief from slow, wasting diseases. Many of them tell of positions lost through ill health, of dollars spent year after year for drugs and in the payment of unreasonably large doctors' bills. Yes, some tell of the hideous surgeon's knife. And yet, after all, they are worse both physically and mentally.

## YOUR GOOD JUDGMENT IS EXERCISED.

After you have tried such methods year after year and find yourself growing steadily worse, do not blame yourself and regret the past. You have done what you thought was the best, and it is very likely that you have never before had an opportunity to take the Yee Foo Lun Chinese herb treatment. It is only of recent years that the secret concerning the wonderful healing powers of Chinese herbs has been given to the world. Throughout past ages, while western civilization was busy with its own particular line of thought and activity, the Chinese have been quietly working out many valuable secrets, proving the superiority of their simple herb treatment above all other methods the world has ever

YEE FOO LUN, C. H. D.
